  - Enhanced mail server integration
  - Closer Roundtable integration
  - TimeSheet & Mileage export to finance systems

# appSolute Management – RoadMap

---

## □ 2008

- Eclipse task integration using Web interface and Mylin
- Integrated document and attachment management
- Workflow processing for Calls and Client Deliveries
- Expense Management, Asset Management
- ITIL compliance
- New Progress UI

# appSolute Management – RoadMap

---

## appSolute Management

- TimeSheet and Project integration with billing solutions
- Integration with appSolute Deployment to track deployments made to clients
- ...

# Agenda

---

- appSolute Excellence: Company profile
- appSolute Management
- **appSolute Deployment**
- Roundtable Dynamics Development SnapShot (RDDDS)

# appSolute Deployment

---

[http://www.app-solutions.com/en/Services Solutions/Solutions/appSolute Deployment](http://www.app-solutions.com/en/Services_Solutions/Solutions/appSolute_Deployment)

# appSolute Deployment

---

- ❑ Toolset extends RTB deployments for automated processing
- ❑ Configurable standardized application deployment processing

# appSolute Deployment

---

## Deployment processing

- Batch processing
  - GUI, TTY, Batch
- Application compilation
- Partition processing (e.g. AppServer and WebClient) in staging environment
- Procedure Library generation
- WebClient project file updates

# appSolute Deployment...

---

- Ant script automation
  - Package and move RTB deployments
  - Process deployments – multi-platform
  - Release deployments
    - Transfer from processing to production (across platforms)

# appSolute Deployment...

---

- Enhancements to application managed within RTB
  - Available as Roundtable partner deployment package
    - Easy installation and variant
    - Easy delivery of updates
  - Deployed as part of application

# Processing Overview

---

- Configure general “rules” for deployment processing
  - rtbdeplcfg.xml – partition process rules
    - Product modules
    - Code subtypes
    - Exceptions
- Create deployment from RTB
  - Generates extended control file (rtb\_idat/dynobjctrl)
  - Generates deployment control file (rtbdeplctrl) with deployment info for ant script usage

# Processing Overview

---

- Process deployment
  - Update databases using DCU (optional) or \_update.w (optional)
  - Run \_update.w
    - Compile application code
    - Process application partitions
    - Build Procedure Libraries
    - Update WebClient project file
  - Update and restart appServer
  - Update WebClient Intellistream delivery

# appSolute Deployment- RoadMap

---

- Managed application distribution
  - Automated multi-point application distribution
  - Integrated with appSolute Management
    - Client deliveries
    - Client product management
- Integration with AntHillPro ([www.anthillpro.com](http://www.anthillpro.com)) – Server and Agent based build automation

# Agenda

---

- appSolute Excellence: Company profile
- appSolute Management
- appSolute Deployment
- **Roundtable Dynamics Development SnapShot (RDDS)**

# Roundtable Dynamics Development SnapShot

---

# RDDS

---

- ❑ Roundtable Dynamics Development SnapShot (RDDS)
  - Pre-built, complete quick install Roundtable Dynamics environment
  - Available for
    - ❑ Progress Dynamics 2.1B
    - ❑ OpenEdge 10.0B
    - ❑ OpenEdge 10.1A
    - ❑ OpenEdge 10.1B
  - Includes appSolute Deployment toolset
